

GAMSAN RESOURCES LTD. (GRA-Alberta)

GOLD CLAIMS ACQUIRED - Gamsan Resources Ltd. has acquired 3 claim blocks (158 units), encompassing some 9500 acres, along the Alberta border, 100 km SE of Valemount, B.C. (SEE MAP OVERLEAF).

These new properties are in the area of the Punch-Bowl claim group held by Gamsan. The acquisitions constitute a regional "stratigraphic-play", covering over 17,000 acres and are designed to follow up discoveries of visible gold within veins cutting Precambrian and Cambrian metasediments on Gamsan's original claims. Grab samples from the original discovery ranged from 0.1 to 5.3 oz/ton gold.

Preliminary prospecting has revealed several occurrences of low-grade gold mineralization in the metasedimentary sequence.
