

**DELAWARE RESOURCES CORP. (DLN-V)**  
**COMINCO LTD. (CLT-V,T)**

**UNDERGROUND PROGRAM-** Murray Pezim, chairman of Delaware **PROGRESSING RAPIDLY** Resources Corp., reports that the underground exploration program on the Snip project, 100 km north of Stewart, B.C., is proceeding. Delaware holds a 40% interest in the project and Cominco, the operator, can earn back a 60% interest upon delivery of a production notice and funding two times Delaware's exploration expenditures. Cominco will be obliged to provide the first portion of the cost of constructing production facilities.

The main drive at the 300m elevation has intersected the Twin Structure as projected. The overall structure was developed over approximately 8 metres of true width, with the strongest portion of the zone indicating a true width of about 3 to 4 metres. Currently the main drive is advancing in mineralization in both directions on the Twin Structure and has proceeded 30m east and 24m west.

The hanging wall drive for drill access to lower levels has reached its objective on the 600m section.

Underground diamond drilling is progressing with 3 drill holes completed on the 400m section. These drill holes confirm the continuity of the Twin structure down-dip to approximately the 180m elevation. Underground drilling is proceeding on the 500m section.

The main haulage level portal site at approximately the 180m elevation level has been prepared.

(See GCNL No.56 p.1 21Mar88 for previous article)

**EAGLE INDUSTRIES LTD. (EAL.B, EAL.A-V)** is preparing to continue its exploration program on its Nicola Lake-Quilchena FY mineral claims after its encouraging results from 60 geo chem assay results, with the majority of these assays showing gold and silver, with a high of up to 0.5 oz. gold/t and 5.5 oz. silver/t. The company has dropped its option leases on the C.Q. & Handy mineral claims at Cottonwood, B.C. and has also dropped the option leases on the Plug II claims northwest of Kamloops, B.C.

**HALLEY RESOURCES LTD. (HLL-V)**  
**SURF INLET MINES LTD. (SFE-V)**

**HALLEY TO BUY CONTROL-** David Patterson, president, OF SURF INLET MINES reports that Halley Resources has agreed to to acquire, subject to regulatory approval, 1,000,000 shares of Surf Inlet Mines, including 750,000 escrow shares, from Tad Van Wollen and Donald Moore at 47.5¢ per share for a total purchase price of \$475,000. A finder's fee of \$43,125 is payable. Surf Inlet holds properties on Princess Royal Island, B.C., including the Surf Mine, which produced 921,245 tons grading 0.4 oz. gold/t. Surf Inlet is negotiating with Kerr Addison Mines regarding a joint venture. David Patterson has been appointed a director of Surf Inlet Mines.

Directors and employee options to purchase 380,000 shares at 38¢ each for two years have been granted.

**NORAMEX MINERALS INC. (NXM-V)**

**FOUR EXPLORATION-** Brian D. Fairbank, president, reports **PROGRAMS PLANNED** that four gold exploration programs will be funded by joint venture partners. A property wide geophysical, geochemical and geological program will start immediately at a cost of \$125,000 on the Sheila/Wanda claims, situated immediately north of CITY RESOURCES (CANADA) LIMITED's (CIZ-V) Cinola gold deposit on the Queen Charlotte Islands, B.C. City Resources can earn a 51% interest by making \$6,000 biannual payments, a \$50,000 final payment and spending \$500,000 on exploration. After earning its interest, City Resources will advance the first \$1,000,000 of joint venture exploration costs.

A \$70,000 program of geophysical and geochemical surveys started in May 1988 on the Conner Creek property, Nelson Mining Division, B.C. CREAM SILVER MINES LTD. (CEM-V) can earn a 51% interest by making cash payments of \$50,000 and spending \$200,000 on exploration.

An exploration program to include opening and sampling the underground workings to define drilling sites will start in June 1988 on the Golden Princess property, Okanogan county, Washington State. DESIGNED DATA (CANADA) INC. (DDC-V) can earn a 50% interest by spending \$150,000 by 30Sep89. Designed Data also has an option to earn a 50% interest in the Blackbear property, 4 km south of the Cinola gold deposit, Queen Charlotte Islands, B.C., by spending \$100,000 on exploration.
