MANHATTAN MINERAL CORP. (MHN-V)

GOLDEN SIDEWALK UPDATE - Dennis L. Higgs, president, reports that Manhattan Mineral Corp. has arranged a flow-through financing of \$172,000 at 85¢ per share with NIM Resource-1988. Proceeds of this financing will be used to diamond drill the Beta zone on the Golden Sidewalk claim group, Lillooet mining division, Goldbridge, B.C.

Manhattan may earn a 50% interest in the project by spending \$500,000 by September 30, 1990.

Drilling results obtained from the Beta zone in the 1987 reverse circulation program were as follows:

<u>HOLE</u>	<u>INTERVAL</u>	<u>FEET</u>	<u>OZ. SILVER/T</u>	<u>OZ. GOLD/T</u>	
87- 8	65- 80	15	3.47	0.93	'ent continuity
87- 9	165-175	10	0.24	.69	'of the zone
87-12	135-155	20	2.10	.15	'between holes
87-14	50- 55	5	.72	.376	'87-8,9,12 & 14,
	70- 75	5	.31	.100	'and the struc-
	130-135	5	.41	.151	'ture remains
