

NO.166(1989)
AUGUST 29, 1989

4901

Mr. Burgoyne also reported the acquisition by Golden Lake Resources of the 2,000 acre Kena copper-gold property 7 km. south of Nelson, B.C., for commitments identical to the Golden News acquisition above.

Previous core drilling on the Kena gold and Kena copper showings included intersections of 0.10 oz.gold/t over 14.6 meters from the Kena gold showing and 0.27%

copper over 51 meters from the Kena copper showing. A September exploration program will concentrate on compiling results from previous exploration work as well as preliminary geological mapping and prospecting. Detailed exploration including diamond drilling is planned following the initial work.
