

RARY

NO.148(1989)
AUGUST 2, 1989

IRON RIVER RESOURCES LTD. (IRN-V)
SURFACE ASSAYS REPORTED - David P. Berkshire, president,
 has reported assays from chip
 samples from two zones on the 100% owned Loughborough
Inlet gold property, 58 km north of Campbell River,
 Vancouver Island, B.C. A new mineralized zone has been
 opened by recent road building.

Five continuous chip samples across the main
 structure produced the following assays:

SAMPLE	LENGTH	OZ. GOLD/T	OZ. SILVER/T
1	1.2 m	1.76	0.76
2	1.1	2.04	.14
5	.9	.80	.32
6	1.4	.32	.05
7	1.2	1.47	.75

A single chip sample across the second zone assay:

3	10 cm	2.10	.10
---	-------	------	-----

L.V. Berkshire has resigned as a director.
