WESTERN CANADIA

At GEDDES RESOURCES LTD.'s Windy Craggy project in the Haines Triangle of NW B.C., underground and surface diamond drilling has continued at a high level resulting in a 40% increase in reserves over those in the second quarter. Using a 1% copper cut-off grade, probable and possible reserves are 154,500,000 tonnes grading 1.73% copper and 0.21 grams gold/tonne. Geddes recently completed a \$10,200,000 financing. Northgate has increased its direct interest in Geddes to 37% and its diluted interest to 42%.
