

NO. 127(1989)
JULY 4, 1989

LANSLOWNE MINERALS LTD. (LNM-V)

**JOINT VENTURE - James E. Agar reports Lansdowne Minerals
PARTNER SOUGHT Ltd. is presently discussing a joint
venture exploration program with several
major mining companies on its Lean-To property south of
Ox Lake, near Tahtsa Reach, 100 miles SW of Burns Lake,**

**B.C. The Lean-To property is a large copper-silver-gold
prospect. Diamond drilling in 1982 and 1985 resulted in
finding the Discovery zone, and the following sections:**

<u>HOLE</u>	<u>INTERCEPT</u>	<u>COPPER</u>	<u>SILVER</u>	<u>GOLD</u>	<u>Induced polarization</u>
	<u>FEET</u>	<u>%</u>	<u>OZ/TON</u>	<u>OZ/T</u>	
19	59	1.59	1.25		'surveys showed a metal 'zone some 1,600 feet
04	42.5	2.28	1.61		'wide and 3,300 feet
11	57	1.58	1.23		'long, of which the
Different higher grade sections					'Discovery zone is a
10	3	8.2	3.5	0.27	'small section on the
08	5	4.1	2.2		'north-east corner.

'Heavy overburden covers
the remainder of the area. Large scale diamond drilling
is proposed to test the extension of these values.
