

GEORGE CROSS NEWS LETTER LTD.NO.120(1989)

JUNE 22, 1989

AMAZON PETROLEUM CORP. (AMZ-V)  
CARPENTER LAKE RESOURCES LTD. (CTA-V)  
MASSIVE SULPHIDE DEPOSIT RESAMPLED- A. Chunick, president  
of Amazon Petroleum  
Corp. 50% and Carpenter Lake Resources Ltd. 50% reported  
that re-sampling of drill core from 20 holes on the  
greenstone hosted massive sulphide zone about one mile  
from the past producing Wayside gold mine at Goldbridge,  
B.C., identified a banded arsenopyrite bearing quartz  
vein that carried 0.125 oz.gold/t over 0.9 meters. Drill  
indicated reserves from the previous drilling, as report-  
ed by Beacon Hill Consultants, are 150,000 tons of 1.76%  
copper and 3.03% zinc. (SEE also GCNL No.63, p.2,  
3Apr89 and No.96, p.3, 18May89).
