

GEORGE CROSS NEWS LETTER LTD.NO.111(1989)

MACNEILL INDUSTRIAL INC. (MCE-V)

FURTHER DRILLING PLANNED - MacNeill Industrial Inc. geologist, Greg L.Ven Huizen, P.Eng., has reported 17 holes cut quartz veins ranging to 66 ft. thick grading up to 0.40 oz. gold/ton over 20 feet and 0.13 oz.gold/t over 14 feet in the western part and 0.31 oz.gold/t over 13 feet and 0.12 oz.gold/t over 13 feet in the eastern part. The strike lengths and widths shown to date indicate a large tonnage potential. The drilling was on the Spokane gold property 40 km north of Lillooet, B.C.

The near surface ore may be amenable to open pit mining. The main target has been trenched over an 800 meter strike length and over 200 vertical meters. The company plans a summer drill program.
