GEORGE CROSS NEWS LETTER LTD.NO.119(1989)

CALNOR RESOURCES LTD. (CUU-V)

EXPLORATION PERMITS RECEIVED - F.G. Hewett, a director of Calnor Resources Ltd., has been advised by Cominco Ltd. that the permits for exploration of the Spectrum property, about 110 miles north of Stewart, B.C. and 15 miles west of the Stewart-Cassiar Highway near Kiniskan Lake, have been received from the provincial government. Evaluation of previous data has resulted in the current concept of a gold bearing vein system that can be traced on surface by EM conductors and soil geochemistry. Some of the better intersections from previous drilling programs were as follows:
