

BEAU PRE EXPLORATIONS LTD. (BPD-V)

WORK PLANNED ON THREE PROPERTIES - Beau Pre Explorations Ltd. is conducting exploration on three properties on southern Vancouver Island, B.C. Work on the Valentine Mountain property 25 km north of Sooke, B.C., will be conducted by Noranda Exploration Company, who have recently optioned a 60% interest in the property (SEE GNCL No.41, p.3, Feb.28, 1989). The Discovery zone on the Valentine Mountain property was not included in the option, except for Noranda being granted a right of first refusal if the property is disposed off. The Discovery zone is owned 50/50 by Beau Pre and VALENTINE GOLD CORPORATION (VGD-V) Drilling on the C vein has shown drill indicated reserves of 40,500 tons with a probable grade of 0.36 oz.gold/t.

A program of mapping, stream sediment, rock and soil sampling is planned for the area where stream sediment samples returned 460,000 parts per billion coarse gold on the Gad property, 14 km east of Port Renfrew, B.C.

A \$50,000 work program in 1989 has been recommended for the Frost Lake property 16 km south of Cowichan Lake. Copper bearing skarns are common on the property.
