

TEUTON RESOURCES CORP. (TUO-V)CANARC RESOURCE CORP. (CCM-V)

CANARC OPTIONS PROPERTY NEAR STEWART - Teuton Resources Corp. has granted Canarc Resource Corp. an option to earn a 60% interest in the 4700 acre Delta property, about 48 km north of Stewart, B.C., by paying \$100,000, issuing 200,000 shares and spending \$1,000,000 on exploration over 4 years. (SEE PROPERTY LOCATION MAP GCNL NO.59, March 28,1989) Canarc plans a two phase \$100,000 program of mapping, sampling, trenching and drilling starting in about 2 months. Teuton has sampled a 2 km long heavy mineral soil anomaly that carries geochemical values up to 0.19 oz.gold/ton and 4.11 oz.silver/t. A number of grab samples from altered rhyolites and graphitic argillites assayed between 0.61% and 15.47% lead, 0.76% to 3.50% zinc, 0.04% to 6.17% antimony, 0.32% to 35.59 oz. silver/t, 0.001 to 1.876 oz.gold/t.
