SOUTHERN CROSS GOLD INC. (SCX-V)

SAMPLE NO.	GOLD OZ/T	SILVER OZ/TON	FRANKLIN VEIN DISCOVERED
55859	0.008	23.92	James B. Wensveen, director, reports soil sampling on the
55860	.007	18.75	<u>Mineral Hill property 14 km.</u>
55861	.011	19.78	<u>north of Houston, B.C.</u> has un-

----- covered a new vein system, the Franklin vein. This quartz vein occurs in hornfelsed flow volcanics and appears to be about four feet wide. Mineralization includes pyrite, chalcopyrite and galena. See table at left for assays of grab samples. Soil samples are being plotted and contoured with results available shortly. Sothern Cross can earn a 100% interest by paying \$100,000 and 100,000 shares to optionors Lorne Warren and Peter Huber, plus a 5% net smelter royalty and conducting about \$70,000 in exploration over four years. (SEE GCNL Nos. 208 & 205 FOR EARLIER WORK)
