

NO. 221(1989)
NOVEMBER 17, 1989

George Cross

Reliable

WESTERN CANADIA

AMERICAN FIBRE CORPORATION (AFB-V)				
HOLE NO.	INTERVAL FEET	LENGTH FEET	SILVER OZ/TON	CHECK ASSAYS IN
89-9	29.5 - 32.5	3.0	1.04	' Lewis Dillman, president reports
	52.5 - 55.75	3.25	0.42	' check assays for
89-10	32.75 - 37.0	4.25	0.61	' drill holes 9,10,
89-11	196.75 - 200.0	3.25	.35	' 11, 12 & 13 have
	249.25 - 252.5	3.25	1.39	' been received
	252.5 - 255.5	3.00	.64	' confirming the

-----'presence of silver on the Stb 1 -16 claims adjoining the Calpine/Stikine No.21 Zone discovery at Eskay Creek, 50 km NW of Stewart, B.C. where the company can earn a 50% interest.

See highlights above. Assays for the last two holes in the program, 89-14 and 89-15, positioned to test the southern end of a coincident IP and geochemical anomaly, have also been received and returned values ranging from trace to 0.15 oz.silver/ton and from trace to 0.003 oz.gold/t throughout. American Fibre plans more work next year.(SEE GCNL Nos. 210, 201, 188 & 177 FOR PREVIOUS RESULTS)
