DELLATERRA RESOURCES LTD. (DEL-V)

PRIVATE ACQUISITION - Susan Wong, director, reports that Dellaterra Resources Ltd. has signed an agreement in principle to acquire all the outstanding shares of Kylite Ventures Inc., a private B.C. company on a one share for one share basis.

Kylite has an option with KERR ADDISON MINES LTD. (KER-T) to earn a 100% interest in the Hoodoo Mountain gold/silver property located in the Iskut River area of NW B.C. some 60 km NW of Stewart by spending \$650,000 on exploration by 31Dec92. At feasibility, Kerr Addison has the right to retain a 5% net smelter return or provide 100% of the capital costs to place the property into production for a 60% interest. Kerr Addison has held the property since 1982 and completed several exploration programs that returned 164 grams silver/tonne and 3.22 grams gold/tonne over 7.4 meters. Kylite has carried out a preliminary program. Results expected shortly.
