AMERICAN FIBRE CORPORATION (AFB-V)
SILVER BUTTE RESOURCES INC. (SBU-V)

MORE SIB ASSAYS - Lou Dillman, president, American Fibre reports more assays from the Sib 1-16 claims adjoining the Calpine/Stikine No.21 Zone discovery

at Eskay Creek, 50 km.NW of Stewart, B.C. American Fibre has an option to earn 50% interest from Silver Butte Resources. Holes 89-5 through 89-11 tested the central zone where trenches returned high gold values. Holes 89-12 and 89-13 tested the surface extension of the 1100 zone where trenching was encouraging. The best intersections were 3.3 feet of 0.123 oz.gold/t and 1.4 feet of 0.14 oz.gold/t. The balance of the were between 0.03 and 0.09 oz.gold/t. Just prior to winter shut-down, two holes were collared to test an IP anomaly south of the Central zone. Assays are awaited. Geophysics and drilling will resume in the spring. (SEE GCNL Nos. 201, 188 & 177 FOR EARLIER DATA)
