<u>ROPER RESOURCES INC. (RRN-Alberta)</u>			
<u>MIKADO RESOURCES LTD. (MKO-V)</u>			
<u>GOLDEN ARCH RESOURCES LTD. (GAI-V)</u>			
<u>HOLE</u>	<u>INTERVAL</u>	<u>LENGTH</u>	<u>GOLD 'MORE RED ELEPHANT</u>
	<u>FEET</u>	<u>FEET</u>	<u>QZ/T 'DIAMOND DRILL ASSAYS</u>
89-12	82 - 92	10.0	0.773 ' Richard Watson, a
	107 - 112	5.0	.302 'director of Roper
89-15	73 - 79	6.0	.547 'Resources Inc., has
89-16	88 - 93	5.0	.632 'reported assays from
	152 - 157	5.0	.328 'diamond drill holes

-----'12, 15 and 16 on the
Red Elephant project, 60 miles SE of Revelstoke, B.C.

To earn its 50% interest in the Red Elephant project, Roper paid \$30,000 and issued 385,000 shares to Mikado Resources Ltd. and 165,000 shares to Golden Arch Resources Ltd. Mikado retains a 35% interest and Golden Arch a 15% interest in the Red Elephant project.

Drill hole 89-48, drilled at an angle of -45 degrees some 12 ft. east of the lower portal, has intersected 54 ft. of massive to semi-massive sulphides in two zones. The zones are from 297 to 345 ft. and 372 to 378 ft. The mineralized sections contain pyrite, pyrrhotite, chalcopyrite, sphalerite and galena. Assays will be announced when received. Drilling is continuing.
