or of

Precious and base metal
 Creek project, 50 miles NW

has the option to earn up to a 51%
 property from Teuton Resources by making cash payments
 totalling \$300,000 and issuing 200,000 shares to Teuton,
 and by spending \$3,200,000 on exploration by May 9,
 1994. The discovery zone, called the Mama Suzu zone,
 occurs over an area of approximately 500 meters by 800
 meters. Of the 43 samples collected from the

SAMPLE NUMBER	GOLD OZ/T	SILVER OZ/TON	LEAD %	ZINC %	COPPER %	'outcrop and 'boulder occur-
34504	0.170	5.30	28.60	1.64	0.55	'ences throughtout
34505	.401	4.90	11.00	.93	.79	'the Mama Suzu
34507	.096	4.17	37.40	15.50	.39	'zone, 31 return-
34513	.142	83.10	10.90	.08	.50	'edin excess of
34515	.004	11.70	1.55	.32	.07	'1.0 oz.silver/t.
34525	.001	20.40	3.31	.05	.10	'The better
34706	.207	100.00	20.70	1.06	.78	'results from

'boulder sampling
 are in the table above. The better assays results from
 the outcrop samples are as follows:

SAMPLE NUMBER	TYPE	WIDTH	GOLD OZ/T	SILVER OZ/TON	LEAD %	ZINC %	COPPER %
34705					0.25	0.02	0.07
3470							
3451

3451							

second area which may be related to the
 zone has been discovered 1,200 meters to the north.
 A survey is planned for the Mama Suzu zone to select
 sites for the start of drilling in September.
