GULF INTERNATIONAL MINERALS LTD. (GIM-V)

MCLYMONT DRILL RESULTS - R.G. Gifford, director, reports
assay results from the 100%
owned Mclymont project of Gulf International Minerals in
the Iskut gold camp, 100 km north of Stewart, B.C.

Drill holes 3 through 8 explored a fault offset to
the south of the main zone. Hole No.5 of this series
included 3.0 feet from 289 - 292 feet grading 0.940
oz.gold/ton. The remaining holes confirmed the presence
of the offset zone. Drilling has resumed testing on the
main mineralized zone in an area to the north. (SEE
