<u>SAMPLE NO.</u>	<u>LOCATION</u>	<u>GOLD OZ/T</u>	<u>TRENCH ASSAYS</u>
H 7518	N. top vein over 6'	2.158	Robert E. Tsuida, president, reports
H 7511	Mid top vein over 4'	2.965	Parallax Develop-
H 7516	S. top vein over 6'	2.439	ment Corp. has re-
H 7514	Mid lower vein over 4'	2.971	ceived high grade
H 75133	S. lower vein over 3'	2.908	gold assays from

----- a trenching program on the 100%-owned, 1,600-acre Contact claims located 12.5 miles northwest of Icfino, Vancouver Island, B.C. The above results are from recently blasted trenches on the flank of a geochemical anomaly located away from previous work programs. Additional samples have been submitted for assay and are pending.
