INDIGO GOLD MINES INC. (IGM-Alberta)

NEW JOY CLAIMS OPTIONED - Glen H. Harper, president,  
reports Indigo Gold Mines Inc.  
has signed an agreement to earn a 50% interest from  
INTERNATIONAL PRISM EXPLORATION LTD. (IPE-V) in the  
New 3 and 4 and the Joy 12 claims comprising 44 units  
located in the Iskut gold camp about 50 miles northwest  
of Stewart, B.C. SEE CLAIM MAP OVERLEAF PAGE 3. Indigo  
will pay \$88,000 and spend \$1,500,000 on exploration by  
31Dec93. Upon exercise of the option, a 50/50 joint  
venture will be formed.

Initial prospecting, soil sampling, silt and heavy  
mineral sampling on the claims identified silver and  
gold anomalies and a gold-bearing quartz/pyrite/chalco-  
pyrite vein. Gold mineralization is encouraging over  
the entire length of the vein sampled commonly grading  
over 0.1 oz.gold/ton. The silver and gold soil  
anomalies are located in an area underlain by quartz  
syenite and include a spot high of 350 parts per billion  
plus areas of weakly elevated silver. More silver  
anomalies were found in the northeast corner of the Joy  
12 claim. Indigo plans to immediately undertake a  
surface exploration program to identify diamond drill  
targets. (SEE GCNL No.117, 18Jun90, P.3 FOR OTHER DATA)
