ECOS RESOURCES LTD. (ECS-V)

CLAIMS ACQUIRED - Tas Morfopoulos, president, reports
Ecos Resources Ltd. is acquiring a
20-unit claim block located eight km north of Enderby,
B.C. by issuing 100,000 shares. The Sugarloaf claim
covers granitic related intrusive rocks in a northerly
trending contact with the Sicamous formation of flaggy
limestone, sericite and graphitic schists.

A shear zone within quartzites hosts a quartz vein
with sparse galena mineralization and traces of gold.
The vein, which strikes north-south, is up to two meters
wide. (SEE GCNL No.47, 7Mar90, P.6 FOR OTHER ECOS DATA)
