TYMAR RESOURCES INC. (TMZ-V,T)

PHASE II DRILLING TO START - William Campbell, secretary, reports Tymar

Exploration Inc. has mobilized a diamond drill rig for the Phase II exploration program on the Lakewater project located about five km southwest of the Eskay Creek 21 Zone deposits some 60 miles northwest of Stewart, B.C. The project is an equal joint venture between Tymar, AKIKO-LORI GOLD RESOURCES LTD. (AKI-V) and VARITECH RESOURCES LTD. (VAR-V).

The Phase II program will comprise follow-up drilling to test the strike & depth potential of the mineralization intersected in hole LW90-2 which returned 1.197 oz.gold/ton and 1.71 oz.silver/ton over 9.8 feet. Several coincident geophysical & geochemical targets will also be tested (SEE GCNL No.185,25Sep90,P.2 FOR PREVIOUS RESULTS)
