CONSOLIDATED CAPROCK RESOURCES LTD. (CCU-V)

PROGRESS REPORT - Charles Underhill, director, reports Consolidated Caprock Resources Ltd. is continuing its Phase I work program on the Iskut River property located four miles north of the Forrest Kerr airstrip about 100 km northwest of Stewart, B.C.

FLORIN RESOURCES LTD. (FLN-V) can earn a 50% interest by spending \$600,000 on three years. Work this season comprised detailed prospecting and reconnaissance geological mapping. Numerous gold occurrences were discovered, primarily on the northern half of the property. Samples from a quartz breccia zone on the Kerr 1 claim assayed as high as 1.338 oz.gold/ton. A skarn occurrence on the western portion of the Kerr 2 claim returned 0.214 oz.gold/ton in addition to many showings with high gold geochemical responses from shear zones, quartz veins and breccia zones. Base metal zones returned up to 2.65% copper. Trenching will be completed before drilling proceeds. The company has 3,599,284 shares outstanding.
