MORE EXPO DRILL RESULTS - Maurice J. Young, president, reports Moraga Resources Ltd. has received further drill results from the Expo property located near Port Hardy, northern Vancouver Island, B.C., in which the company is earning a 45% interest from BHP-Utah. Hole EC-180 was drilled vertically from the same set up as EC-179 and adds an additional 270 meters to the width. (SEE GCNL No.154, 10Aug90, P.1 FOR ASSAYS FROM EC-179) The zone remains open to the south. Hole EC-180 is confirmation the zone extends under MacIntosh Mountain, indicating potential reserves in excess of 300,000,000 tons.
