-----  
ASSAYS RECEIVED - James W. McLeod, director, reports Big I Developments Ltd. has received assays from the field program on the Haida-Catspaw property located about 25 miles north of Stewart, B.C.

Big I can earn a 50% interest in the Haida claim by spending \$500,000 on exploration over three years and paying \$50,000. A 100% interest in the 16-unit Catspaw claim, which surrounds the Haida claim, can be earned by paying \$175,000 and issuing 100,000 shares to TEUTON RESOURCES CORP. (TUO-V) by 1Dec94, subject to a 2.5% net smelter return royalty to Teuton and a 5% net proceeds interest to the original vendor. Teuton also holds a one-time option to back-in to a 40% working interest at the time Big I has spent \$2,000,000 on exploration. Big I plans a drilling program to test a number of mineralized zones. It is anticipated drilling will begin in the early part of Oct/90. (SEE GCNL No.169, 31Aug90, P.2 FOR PREVIOUS RESULTS)
