	130.0-134.0	4.0	0.200'
	202.5-212.7	10.2	0.292'
incl.	202.5-206.0	3.5	0.788'

-----' sedimentary sequence.

New results are shown in table above. Additional assays are pending. The company also reports it has staked 10 claims, including 200 units, situated 10 miles north of its McLymont property and bordering the Cominco Foremore property on the southwest. Cominco has mounted a drill program on a rumoured stratabound base metal show. (SEE GCNL No.168, 30Aug90, P.1 FOR PREVIOUS RESULTS)
