

COLUMBIA GOLD MINES LTD. (COB-V)

EURUS RESOURCES CORP. (ERR-V)

MORE SPECTRUM ASSAYS - John S. Brock, president, reports Columbia Gold and Eurus Resource have assays from the drilling on the Spectrum project 200 km north of Stewart, B.C. Eurus can earn 50% from Columbia by spending \$8,000,000 on exploration over four years. Hole 76, within which visible gold was previously reported, was drilled 210 feet up-dip from a 0.99 oz.gold/ton intersection over 10.2 feet in hole 71.

Hole 83 is drilling and assays are pending for holes 91-77 through 82. (SEE GCNL No.149, 2Aug91, P.1 FOR PREVIOUS DRILL RESULTS)
