"Reliable Reporting"

WESTERN CANADA

DENTONIA RESOURCES LTD. (DTA-V)

KETTLE RIVER RESOURCES LTD. (KRR-V)

ONE GOOD HOLE REPORTED - Kettle River Resources 50% and Dentonia Resources 50% have reported Minnova Inc. holds an option to earn a 60% interest of the Rainbow Joint Venture near Greenwood, B.C. The No. 20 hole in the Tam O' Shanter area intercepted 3.3 meters of 0.213 oz. gold/t, 8321 ppm copper and 6.2 ppm silver. This new epithermal vein is on the eastern edge of the Toroda Creek Graben adjacent to a major tertiary age fault system and is a new discovery about which nothing is yet known. The recently completed drill program of 23 holes is being evaluated by Minnova and a detailed report is expected in the New Year.
