

NO.234(1991)  
DECEMBER 5, 1991

**George Cross News Letter**  
"Reliable Reporting"

**NOBLE METALS GROUP INC. (NMG-V)**

MAJOR IMPORTANCE ATTACHED TO GOLD AND PLATINUM GROUP  
CHECK ASSAYS FROM PRINCETON B.C. AREA PROPERTY

Dorothy Dennis president has reported Noble Metal Group has received assays on the second and third samples of 20 feet each from the No.7 drill hole on the Tor claims, 12 km north of Princeton, B.C. The two samples were assayed by three methods: econoleach; chemical assay using Aqua Regia digestion; and fire assay. Each of the methods returned comparable values for the 40 feet of: 0.5 oz. gold/t, platinum 0.091 oz./t, palladium 0.076 oz./t, rhodium 0.053 oz./t.

Assay results from sample No.2 and No.3 correspond closely with the values recovered in Sample No.1. The three samples assayed to date comprise a continuous length of 63.5 feet, from 390 feet to 453.5 feet in hole No. 7. A check diamond drill hole will be drilled to 1,000 feet.

Dr.Peter Fox, P.Eng. has been retained and consulting geologist.

Noble Metal Group holds an option to buy 100%, subject to a 3% net smelter return royalty, in one claims 12 miles north of Princeton, B.C. (SEE DETAILS IN NO.216, P.1, Nov. 8, 1991 for details also see NO.229, P.1, Nov.28, 1991, for a property location map)
