WESTERN CANADIAN INVESTA

CANASIL RESOURCES INC. (CLZ-V)

AGREEMENT TERMINATED - Paul J. Weishaupt, president,
reports Canasil Resources Inc.

has received notice that Mingold Resources Inc. has
ceased all exploration in Canada and has terminated its
option agreement with Canasil on the Brenda gold/silver
property located in the Toodoggone River area of
north-central B.C. Canasil regains a 100% unencumbered
ownership. Joint venture partners will be sought.

The 1990 trenching program, funded by Mingold,
concentrated on the White Pass East area and confirmed
the presence of a large epithermal system containing
significant gold and silver values. Trenching in an
area two km southwest of the White Pass zone discovered
gold/silver mineralization in a quartz-breccia ranging
in width between two and four meters. (SEE GCNL No.130,
6Jul90. P.5 FOR ORIGINAL TERMS)
