GOLDRITE MINING CORP. (GRQ-V)

TROUT PROPERTY EARN-IN - Kenneth Hueser, president, reports Goldrite Mining Corp. has signed an agreement to earn a 50% interest in Minnova's Trout property located 60 km SW of Vanderhoof, B.C. by spending \$1,000,000 on exploration over five years. After earning in, Goldrite and Minnova will form a joint venture for development of the property.

The Trout property was discovered by Kerr Addison Mines in 1984. It has been the focus of a limited exploration program consisting of geophysics, trenching and drilling. A number of mineralized zones on surface were discovered with trench samples grading up to 0.24 oz.gold/ton over 21 feet. Drilling intersected fault

zones that returned gold grades of 0.10 oz./ton over 18 ft, 0.08 oz./ton over 33 ft and 0.11 oz./ton over 60 ft.
