SHELLEX GOLD CORP. (SCE-V)

GALORE/ISKUT EXPLORATION FOR SUMMER - Gary Schellenberg,
president, reports

Schelllex Gold Corp. plans to spend over \$500,000 on
exploration of its various mineral properties located in
the Galore Creek Iskut River areas of northwest B.C.
this summer with work expected to begin early July.
Schelllex either owns outright, is earning an interest
in, or has farmed out over two dozen properties. The
bulk of the funding are from joint venture partners.

The 1990 exploration results have been compiled on
the 100%-owned Yeti property in the Galore Creek camp.
The program identified widespread copper/gold minerali-
zation within the favourable Stikine volcanic package.
Copper values up to 44.28% and gold values as high as
24.4 grams/tonne were obtained. This year's work will
focus on the porphyry copper/gold potential. (SEE GCNL
