KILO GOLD MINES LTD. (KGD-Alberta)

APEX DRILLING UNDERWAY - Thomas E. Kirk, president, reports Kilo Gold Mines Ltd. has begun drilling its Apex Mountain mineral claims located 26 km southwest of Penticton, B.C. The drill program is designed to test gold values at depth. Previous work discovered a lense of ore about 10,000 tons or better assaying 0.75 oz.gold/ton. Permits have been obtained to extract 10,000 tons of ore and arrangements have been made for mining, milling and hauling the ore.

It is the company's intention, upon confirmation of gold values at depth, to immediately begin mining. There are 10 other targets on the property.
