SPRINGER RESOURCES LTD. (SPR-V)

SECOND UNUK RIVER ASSAY RECEIVED- Murray Pezim, chairman,
Springer Resources
Ltd., reports additional partial assays from a second
diamond drill hole has been received from the Unuk River
project located about five km south of the Prime/Stikine
Easkay Creek deposits some 65 km northwest of Stewart,
B.C. GRANGES INC. (GXL-I) is completing the last
phases of a \$3,000,000 exploration commitment which will
result in it earning a 50% interest with COVE
RESOURCES CORP. (COV-V) retaining a 12.5% interest. In
the second hole, J91-2, collared 250 meters from the
discovery hole, 0.186 oz.gold/ton and 0.76 oz.silver/ton
were returned over 10 feet. The zone begins immediately
below the drill casing of the hole, 13.5 feet below
surface. More assays are pending. (SEE GCNL No.180,
17Sep91, P.1 FOR PREVIOUS DRILL RESULTS)
