INTERNOVA RESOURCES LTD. (INN-V)

PICTOU DRILLING BEGINS - Internova Resources Ltd.

reports drilling has started on its Pictou property located near Atlin, northern B.C. Internova holds a 100% interest, subject to a 2% net smelter return royalty. The 1,500-foot NQ diamond drill program is designed to test the strike potential of an alteration zone at the main showing. Previous drilling identified quartz/quartz carbonate veins and vein stockworks within the altered ultramafics with ore grade mineralization in one hole of 8.8 grams gold/tonne over a 1.5-meter thickness (0.27 oz.gold/ton over 5.0 feet).
