"Reliable Reporting"

LUCKY 7 EXPLORATION LTD. (LKS-V)

NEW SHOWING AT CAMP - Lucky 7 Exploration Ltd.
MCKINNEY TO BE DRILLED president, Charles Brett has
reported permits have been
received to drill 3 BQ core drill holes on the optioned
Old England property 3 km east of the old Camp McKinney
gold mine in southern B.C.

Previous sampling by Lucky 7 revealed a highly
altered, mineralized quartz structure assaying 0.285 oz.
gold/t and 0.16 oz. silver/t over 9.3 ft., which
included a higher grade section of 1.233 oz. gold/t and
0.58 oz. silver/t over 2.0 ft.

The presence of a strong zone in apple green
mariposite alteration with the quartz veining adds a
strong note of encouragement to the planned exploration
of this new mineralized zone.
