-----  
consultant, Peter Sevensma, Ph.D, P.Eng. from the Black Warrior property have been completed and are noted above. Jopec can earn a 100% interest in the 8,600-acre Black Warrior property located in the Ferguson area of the Kootenay Arc near Salmo, B.C. The above samples were taken by Dr. Sevensma from the Ellesmere zone of the Black Warrior Property which consist of replacement type mineralization in several horizons in limestone (Badshot Formation). These assays are of the same magnitude as those taken by Jopec personnel from several mineralized horizons over a strike length of over 4100 feet. (SEE GCNL No.226, 24Nov92, P.1 FOR PREVIOUS DATA)
