

BOOKER GOLD EXPLORATIONS LTD. (BGE-V)			CLAIMS UNDER NEGOTIATION
INTERVAL FEET	GOLD OZ/T	COPPER %	
13 - 20	0.012	3.254	Hugh Grenfal, president, reports Booker Gold Explorations Ltd. is negotiating to acquire the Hearne Hill property located near Smithers, B.C. Previous drilling has indicated reserves of 180,000 tonnes grading 1.7% copper with substantial gold values. The target is open in all directions. The zone is contained in a clast supported, drusy breccia (made of fragments of pre-existing rocks that have been further crushed). The drill results listed at left were taken from most recent drilling in Oct/91. Mineralization continued to the bottom of the hole at 339 feet. The acquisition will be subject to regulatory approval.
