"Reliable Reporting"

KETTLE RIVER RESOURCES LTD. (KRR-V)

DENTONIA RESOURCES LTD. (DTA-V)

TAM O'SHANTER PROJECT TO PROCEED - Minnova Inc., the operator of the

Rainbow joint venture near Greenwood, B.C. have informed Dentonia 50% and Kettle River 50% further exploration will take place on the Tam O'Shanter project in 1992. Minnova Inc. holds an option to earn 70% in the Rainbow joint venture by spending \$1,000,000 on exploration.

The gold bearing structure with values of 0.213 oz/ton gold, 0.83% copper over 3.3 meters encountered in the final stages of drill program will be further evaluated. A drill hole intercept was 3.3 meters of 0.213 oz. gold/t, 0.83% copper. The width of 3.3 meters is part of a larger structure. This new discovery is near the Bengal Shaft, an area that was prospected in the early days.

The relationship of this new zone to known structures and alteration is not understood.
