COLUMBIA GOLD MINES LTD. (COB-V)

DRILL PROGRAM START - Columbia Gold Mines Ltd. has reported Exploration crews are on site at the Spectrum Gold property near Kinaskan Lake 225 km northeast of Stewart, B.C. Core drilling is scheduled to start July 10/92.

Drilling will start on the 500 Colour Zone in order to define reserve potential around an earlier drill hole which intersected 0.96 ounces per ton gold over 19 feet.

Assay reports should start near the end of July.
