MORE HIGH GRADE COPPER CUT - Bruce McKnight, vice president, reports Westmin Resources Ltd. has received assays from drilling at the Myra Falls mining operation west of Campbell River, Vancouver Island, B.C. Drilling on Sections 13+72E, 15+85E and 16+92E continues to test the Battle zone. The hole on 15+85 is currently at 366 meters and has flattened up to 40 degrees south which could make for a very long step-out to the south or a possible overshooting of the target. (SEE GCNL No.60, 25Mar92, P.1 FOR PREVIOUS DRILL RESULTS)
