WESTMIN RESOURCES LTD. (WMI-V,T)

BATTLE ZONE INFILL ASSAYS - Bruce McKnight, vice president, corporate affairs, reports Westmin Resources Ltd. has received the precious metals assays for its Battle zone infill drill holes at the Myra Falls mining operations located west of Campbell River, Vancouver Island, B.C. In addition, the company received preliminary results for another seven holes. SEE TABLE OF ASSAYS OVERLEAF. The hole on Section 17+98E was drilled off-section to the east and has now extended the Battle zone a total of 100 meters east of section 17+98E.

An additional seven holes have been completed on sections 17+50E and 17+50E and all visually appear to have good Battle Zone intersections. Assays will be available in the next few weeks. The next sections planned for drilling are sections 17+85E and 16+75E. (SEE GCNL NO.30, 12Feb93, P.1 FOR PREVIOUS DATA)
