**WINSLOW GOLD CORP. [WGC-V]
TREV CORP. [TVC-ALBERTA]**
CORNICE MTN. DRILLING TO START - Hugh G. Ross, president,
Winslow Gold reports
Trev Corp. has executed a contract for the drilling of the high-grade
gold discovery on the Cornice Mountain property in the Stewart area
of B.C., about 15 km from Lac Minerals Red Mountain property. The
project is being funded by Trev Corp.'s joint venture partner, Cameco
Corp., to follow up on mineralization found during the 1992
exploration season. Geological and geochemical work has begun on
the property and drilling is scheduled to start 4Aug93.
Trev Corp, in conjunction with partner Cameco, holds an option
to acquire a 100% interest in the property by making cash payments
totaling \$275,000, issuing 275,000 shares and incurring work
expenditures totalling \$1,000,000. Should the option be fully
exercised, Winslow and its joint venture partners will retain a 2% net
smelter return subject to a \$1,000,000 buyout provision. Winslow
maintains a 25% interest in the property and will receive 25% of the
aforementioned cash and share payments. (SEE GCNL NO.130,
