### DOROMIN RESOURCES LTD. (DOI-V)

**GOLD RIVER CLAIMS STAKED** - Marino Specogna, director, reports Doromin Resources Ltd. has acquired, by staking, additional ground in the Gold River area of central Vancouver island, B.C. Prospecting led to the discovery of mineralization outcropping in a 300-foot high rock bluff. The mineralization, predominantly chalcopyrite, extends for approximately 500 ft. across the rock bluff.

Copper staining in the rock bluff was initially observed from a distance of 1,500 feet. Rocks at the base of the rock bluff are volcanic in origin. No past reported work has been conducted in the area. (SEE GCNL No.45, 5Mar93, P.3 FOR OTHER PROJECT INFORMATION)
