**LA ROCK MINING CORP. (LAR-V)**

**HOLE DP93-16 (Azimuth 030°; Dip-45°)**

INTERVAL (FT.)	FOOTAGE	GOLD OZ./TON
128.5-145	16.5	0.065
(Incl. 1.5 ft. interval of 0.241 oz. gold/t)		
160.5-161.5	1.0	.254
185.5-186.5	4.0	.920
(Incl. two high gold intervals in a number of quartz, pyrite, galena and sphalerite stringers)		
185.5-186.5	1.0	2.231
188.5-189.5	1.0	1.310

**BRANDYWINE DRILL RESULTS - Dr. Robert E. Lee, president, reports**  
 La Rock Mining Corp. has received assay results from Dave's Pond area at the Brandywine gold property 40 km north of Squamish, B.C. SEE MAP GCNL NO.153, 11AUG93, OVERLEAF P.2. La Rock has a 100% interest subject to a 0.5% NSR. The company's on-site geologist indicates the further expansion of the Dave's Pond gold zone, from Discovery Hole DP93-4, in a surface step-out of 130 feet southeast to the collar of Hole DP93-16. The mineralized zone in DP93-16 cut 50 feet (along strike) southeast of the intersection in DP93-4 which returned high gold values. These gold discoveries enhance the expansion of Brandywine potential  
 Assays are pending on core from hole DP93-17. Hole DP03-18 is currently being logged and saw split. Drilling on DP93-19 in progress is a 200-foot surface step-out to the east of DP93-16, 17, 18 and is designed to test for an extension of the same mineralized structure. Drilling continues. (SEE GCNL NO.206, Oct.27/93, P.4 FOR PREVIOUS PROJECT INFORMATION)
