TECK CORP. [TEK.A-V,T,M]
DRIFTPILE DRILLING RESULTS - Wayne Spilsbury, vice president,
western exploration, reports Teck
Corp. has received assays from a drilling program on its Driftpile
property located 100 km north of the Stroansay (Cirque) deposit in the
Williston Lake area of northeast B.C. Thirteen holes were drilled in the
1993 summer program of which 10 intersected a zone of stratabound
zinc and lead mineralization. The best intersections and maps are
overleaf P.1. Drilling has now been suspended for the winter and will
resume again in June 1994.

Teck Corp. holds a 100% interest in the property subject to a 10%
net profits interest split between **PLACER DOME INC.** [PDG-
V,T,M] (3.33%), GCO Minerals (3.33%) and Pembina Resources
(3.33%) as a result of previous exploration on the property. In
addition, Energold Minerals holds a 5% deemed net proceeds interest to
a maximum of \$250,000. (SEE GCNL NO.165, 27Aug93, P.3 FOR
OTHER INFORMATION)
