NAVARRE RESOURCES CORP. [NRV -V]

STEWART, B.C. AREA EXPLORATION REVIEW -Drilling continues
on the 100%-owned

Strike property, in the Big Missouri area, 20 km north of Stewart, B.C.
Over 40 targets have been identified along a polymetallic mineral
zone. To date 7 diamond drill holes, to depths of 400 - 550 feet, have
been completed. Assay results will be forthcoming. Two additional
veins have been discovered near recent glaciers.

WIDTH	GOLD OZ/T	SILVER OZ/T	LEAD%	ZINC%
2.8 FT.	1.313	4.66	1.7	0.3
3.8 FT.	0.730	4.47	2.5	1.6

On the Marmot property in the same general area, EM and
magnetometer, geochemical, and mapping surveys have traced quartz-
sulphide vein system for 3,000 feet with up to 2.6 oz. gold/t in place.

On the Summit property, also in the same general area mapping
and geochemical surveys completed on major northwest trending
mineral zone adjacent to Scottie Gold Mine. Geological structure
indicates potential for metallic mineral deposit.

Further news will be released when results have been compiled.
