## AMERICAN BULLION MINERALS LTD.

[ABP-V] 5,652,233 SHS.

MORE RED CHRIS ASSAYS RECEIVED - John S. Brock, president,  
reports American Bullion  
Minerals Ltd. has received further drill results from the Red Chris  
project gold/copper porphyry project located south of Dease Lake,  
northern B.C. American Bullion is acquiring an 80% interest.

The drilling is expanding reserves along a 1,000-metre length  
of the deposit. Drill holes in several sections have now extended  
high grade values down to 300 metres with mineralization remaining  
open to depth. Assays for holes 94 to 86 are listed overleaf P.3.

Assay results of holes 94-75 to 94-79 were reported in GCNL  
NO.148, 4Aug94, P.1. Drill hole 94-80 was collared outside the  
high grade mineralized zone. Geochemical and geophysical surveys  
are developing additional large drill targets within a five-km long  
zone of intense alteration and mineralization that surrounds the area  
currently being drilled. To date, 22 holes have been drilled as part of  
the 1994 program. (SEE GCNL NO.139, 2Jul94 FOR MAP)
