GUARDIAN COMMUNICATION INDUSTRIES INC. [GUD-V]
GOLD CLAIMS ACQUIRED - Len J. Harris, president, reports Guardian
Communication Industries Inc. has
acquired, for the cost of staking, 40 units covering 2,500 acres in the
Iskut River area of northwest B.C. The property is underlain by a
sequence intercalated (interstratified) Triassic and Jurassic-age island
are volcanics and sediments. One auriferous quartz vein yielded 0.858
oz. gold/ton over 30 cm. A marble float from a stream at the northwest
corner of the Danzig claim returned 8.3% zinc, 0.3% lead and 12.9 ppm
silver. Previous work has outlined four areas of interest for follow-up.
The claims lie about 16 km south of the Skyline Johnny Mountain
Mine and Comico's snip deposit. The Stewart complex has been the
focus of intense exploration for the last 10 years and has resulted in a
number of mines placed in production and properties brought to
feasibility levels.
